

## **Learn an Ancient Folk Art, in an amazing Indian village trip**

### **ABOUT US**

Our Partner Atul Kelkar, has been an Airbnb Super-host for many years & he has a background in designing & directing events & experiences for over 20 years. He has his own Travel business. We love to host people and ensure that every stay of theirs in our house, is a memorable one. Same applies to our clients in the Travel, Event and Experiences businesses, at the end of the activity, we want them to feel satisfied, happy & informed. We are very proud of India and its culture & we know there are some aspects of India's history and culture that has not been adequately showcased to the world and now we have set about doing just that, by starting many activities including hosting experiences on AirBnb.

### **WHAT WE DO**

In this amazing experience, you gain so much:

- 1) An amazing drive out of the hustle and bustle of Mumbai to enjoy a slice of Rural India.
- 2) Witness & learn an ancient Indian art form "Warli Art", which is over 1200-year-old. Understand how & why these paintings were & are made, and their social and religious relevance.
- 3) Learn to create your own Warli style of painting, you can take back home with you.
- 4) Explore a small multi-crop farm in an Indian village & enjoy a pure vegetarian rustic lunch cooked using organic vegetables grown in the farm, cooked by the local women.
- 6) Get a chance to purchase, authentic handicrafts embellished using the Warli Art techniques.

Assemble in Dadar at 6.30 AM. Enjoy a cup of tea in our house, and get briefed. Drive to the village, 120 kms away, and reach by about 10 AM. We enjoy a simple traditional Indian breakfast in the village. I, along with a local expert, will explain the history of Warli Art & how its practiced even today. A well know Warli art expert will conduct a Warli Art Class, right in his simple home, where you will create your own Warli painting, with his guidance. We will then visit the Farm, followed by a rustic pure vegetarian traditional lunch, cooked using organic vegetables, you see grown there. Next we go for a walk in the village, for you, a real experience of Rural India. We then drive back to Mumbai to reach by 6:00 PM.
